Jos seinän kosteuseriste läpäistään, on kohta tiivistettävä sopivalla massalla. Kiinnitykseen käytettävät kiinnikkeet ja menetelmät vaihtelevat seinämateriaalista riippuen (poraus, tulpat ym.). Kiinnitystarvikkeet eivät sisälly toimitukseen.

Om väggens fuktspärr genombryts måste genomföringen tätas med en lämplig massa. De fästen och metoder som används för montering varierar beroende på väggmaterialet (borring, pluggar osv.). Monteringshårdvara ingår inte.

If the wall's moisture barrier is penetrated, the opening must be sealed with an appropriate sealant. The mounting brackets and methods used will vary depending on the wall material (drilling, plugs, etc.). Mounting hardware is not included.
